

# MEETING MINUTES

Date	Tuesday 22/03/22
Time	9:30pm
Attendees	Tom, Calvin, Daniel, Eileen
Apologies	Aj
Please have done	Your functions
Meeting purpose	Iteration 2 -
Next meeting	Wednesday 21/03 evening

## Agenda

Agenda Item	Minutes																																																																																																																																																																																																
Iteration 2 Tokens	Comparing Tom's and Daniel's authorisation tokens files <ul style="list-style-type: none"><li>- Tom's version hashed the server_ids</li></ul>																																																																																																																																																																																																
Persistence	<ul style="list-style-type: none"><li>- Looks good</li></ul>																																																																																																																																																																																																
Error messages in HTTP	<ul style="list-style-type: none"><li>- Access errors: use 403 as HTTP status code</li><li>- Input errors: use 400</li></ul>																																																																																																																																																																																																
To do before tomorrow night:	<div>1) Http tests</div> <div>2) Http endpoints for functions</div> <div>3) Python implementation</div>																																																																																																																																																																																																
Iteration 2 delegation:	<table><tr><td></td><td>Daniel</td><td>Aayush</td><td>Calvin</td><td>Eileen</td><td>Thomas</td></tr><tr><td>auth/login/v2</td><td></td><td></td><td></td><td></td><td></td></tr><tr><td>auth/register/v2</td><td></td><td></td><td></td><td></td><td></td></tr><tr><td>channels/create/v2</td><td></td><td></td><td></td><td></td><td></td></tr><tr><td>channels/list/v2</td><td></td><td></td><td></td><td></td><td></td></tr><tr><td>channels/listall/v2</td><td></td><td></td><td></td><td></td><td></td></tr><tr><td>channel/details/v2</td><td></td><td></td><td></td><td></td><td></td></tr><tr><td>channel/join/v2</td><td></td><td></td><td></td><td></td><td></td></tr><tr><td>channel/invite/v2</td><td></td><td></td><td></td><td></td><td></td></tr><tr><td>channel/messages/v2</td><td></td><td></td><td></td><td></td><td></td></tr><tr><td>clear/v1</td><td></td><td></td><td></td><td></td><td></td></tr><tr><td>auth/logout/v1</td><td></td><td></td><td></td><td></td><td></td></tr><tr><td>channel/leave/v1</td><td></td><td></td><td></td><td></td><td></td></tr><tr><td>channel/addowner/v1</td><td></td><td></td><td></td><td></td><td></td></tr><tr><td>channel/removeowner/v1</td><td></td><td></td><td></td><td></td><td></td></tr><tr><td>message/send/v1</td><td></td><td></td><td></td><td></td><td></td></tr><tr><td>message/edit/v1</td><td></td><td></td><td></td><td></td><td></td></tr><tr><td>message/remove/v1</td><td></td><td></td><td></td><td></td><td></td></tr><tr><td>dm/create/v1</td><td></td><td></td><td></td><td></td><td></td></tr><tr><td>dm/list/v1</td><td></td><td></td><td></td><td></td><td></td></tr><tr><td>dm/remove/v1</td><td></td><td></td><td></td><td></td><td></td></tr><tr><td>dm/details/v1</td><td></td><td></td><td></td><td></td><td></td></tr><tr><td>dm/leave/v1</td><td></td><td></td><td></td><td></td><td></td></tr><tr><td>dm/messages/v1</td><td></td><td></td><td></td><td></td><td></td></tr><tr><td>message/sentdm/v1</td><td></td><td></td><td></td><td></td><td></td></tr><tr><td>users/all/v1</td><td></td><td></td><td></td><td></td><td></td></tr><tr><td>user/profile/v1</td><td></td><td></td><td></td><td></td><td></td></tr><tr><td>user/profile/setname/v1</td><td></td><td></td><td></td><td></td><td></td></tr><tr><td>user/profile/setemail/v1</td><td></td><td></td><td></td><td></td><td></td></tr><tr><td>user/profile/sethandle/v1</td><td></td><td></td><td></td><td></td><td></td></tr><tr><td>admin/user/remove/v1</td><td></td><td></td><td></td><td></td><td></td></tr><tr><td>admin/userpermission/change/v1</td><td></td><td></td><td></td><td></td><td></td></tr></table>		Daniel	Aayush	Calvin	Eileen	Thomas	auth/login/v2						auth/register/v2						channels/create/v2						channels/list/v2						channels/listall/v2						channel/details/v2						channel/join/v2						channel/invite/v2						channel/messages/v2						clear/v1						auth/logout/v1						channel/leave/v1						channel/addowner/v1						channel/removeowner/v1						message/send/v1						message/edit/v1						message/remove/v1						dm/create/v1						dm/list/v1						dm/remove/v1						dm/details/v1						dm/leave/v1						dm/messages/v1						message/sentdm/v1						users/all/v1						user/profile/v1						user/profile/setname/v1						user/profile/setemail/v1						user/profile/sethandle/v1						admin/user/remove/v1						admin/userpermission/change/v1					
	Daniel	Aayush	Calvin	Eileen	Thomas																																																																																																																																																																																												
auth/login/v2																																																																																																																																																																																																	
auth/register/v2																																																																																																																																																																																																	
channels/create/v2																																																																																																																																																																																																	
channels/list/v2																																																																																																																																																																																																	
channels/listall/v2																																																																																																																																																																																																	
channel/details/v2																																																																																																																																																																																																	
channel/join/v2																																																																																																																																																																																																	
channel/invite/v2																																																																																																																																																																																																	
channel/messages/v2																																																																																																																																																																																																	
clear/v1																																																																																																																																																																																																	
auth/logout/v1																																																																																																																																																																																																	
channel/leave/v1																																																																																																																																																																																																	
channel/addowner/v1																																																																																																																																																																																																	
channel/removeowner/v1																																																																																																																																																																																																	
message/send/v1																																																																																																																																																																																																	
message/edit/v1																																																																																																																																																																																																	
message/remove/v1																																																																																																																																																																																																	
dm/create/v1																																																																																																																																																																																																	
dm/list/v1																																																																																																																																																																																																	
dm/remove/v1																																																																																																																																																																																																	
dm/details/v1																																																																																																																																																																																																	
dm/leave/v1																																																																																																																																																																																																	
dm/messages/v1																																																																																																																																																																																																	
message/sentdm/v1																																																																																																																																																																																																	
users/all/v1																																																																																																																																																																																																	
user/profile/v1																																																																																																																																																																																																	
user/profile/setname/v1																																																																																																																																																																																																	
user/profile/setemail/v1																																																																																																																																																																																																	
user/profile/sethandle/v1																																																																																																																																																																																																	
admin/user/remove/v1																																																																																																																																																																																																	
admin/userpermission/change/v1																																																																																																																																																																																																	

Changes to be made for the group	<p>Auth and list_all needs to change</p> <p>Skip past names that start with 'Removed' 'user'</p> <p>When you make helper functions, can you please write a 1 line description of what that function does so others can understand how to use that helper function? Thank you</p> <ul style="list-style-type: none"> <li>- Need channel/leave/v1 implemented so I can use in my function admin/user/remove/v1</li> <li>- By Wednesday night, remove all print statements</li> </ul>
----------------------------------	--

### Action Items

Person	Action Item	Due Date
Everyone	HTTP tests, http endpoints, python function implementation for your functions before Wednesday night	Wed 23 March (tomorrow)
Tom		
Calvin		
Daniel		
Eileen
