MEETING MINUTES

Date	Sunday 20/03/22
Time	8pm
Attendees	Tom, Calvin, Daniel, Eileen, Aj
Apologies	
Please have done	Your functions
Meeting purpose	Iteration 2 - Testing your functions on postman and frontend, and debugging
Next meeting	Thursday 24/03 (tomorrow) evening

Agenda

Agenda Item	Minutes
Iteration 2 Tokens	Update this Sheets Spreadhsheet as you debug your function using Postman and connecting to frontend: 🟢 Iteration 2 checklist
Changes to be made for the group	Auth and list_all needs to change Skip past names that start with 'Removed' 'user' When you make helper functions, can you please write a 1 line description of what that function does so others can understand how to use that helper function? Thank you - Need channel/leave/v1 implemented so I can use in my function admin/user/remove/v1 - By Wednesday night, remove all print statements
To do now before Thursday morning autotests run	- Test all functionality using frontend and all error checking using postman
	1)

Iteration 2 delegation:						
		Daniel	Aayush	Calvin	Eileen	Thomas
	auth/login/v2					
	auth/register/v2					
	channels/create/v2					
	channels/list/v2					
	channels/listall/v2					
	channel/details/v2					
	channel/join/v2
